

ARNE NAESS

Selected Bibliography, Arne Naess

In his life, Arne Naess wrote nearly 400 articles and numerous books. In this selected bibliography we present most of the books that have been written or translated to English. We also offer a list of articles and essays in English by Naess that are relevant to environmental philosophy. This list is to a large extent based on information compiled by Harold Glasser and Kit-Fai Naess. We also present some of the key works that Naess co-authored with others. In this overview, the abbreviation SWAN refers to the *Selected Works of Arne Naess (Vol. I–X)*, published in 2005 by Springer International Publishing, and edited by Alan Drengson and Harold Glasser.
